

RUDAVLIES[®]-sterile

Product Description and Purpose

The carrier fabric of this sterile first-aid dressing is a white, elastic non-woven which is coated with a hypoallergenic polyacrylate adhesive. The wound pad does not adhere to the wound and has a very high absorptive capacity. It is overlapped, and thus protected, on all sides by the carrier fabric. The so-called "island dressings" are individually packed in sterile packaging.

Composition

Viscose, polyester, polyacrylate adhesive

Normative and Legal Requirements

RUDAVLIES[®]-sterile is a medical product in accordance with the MDD, class Is, rule 4, and complies with the requirements of the directive 93/42/EEC.

Sterilization of the product complies with DIN EN 11137.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.
