

NOBA Verbandmittel

Danz GmbH u. Co KG

NOBADERM®

Product Description and Purpose

The sterile, transparent film dressing is made of polyurethane and is provided with a hypoallergenic polyacrylate adhesive. The film protects aseptic wounds (for example abrasions, surgical wounds) against the penetration of pathogenic germs. NOBADERM® is waterproof, but steam-permeable. It is excellently suited as a wound cover for the damp wound treatment in combination with alginates (NOBAALGIN®), hydrogels (NOBAGEL®) or collagen (NOBA-KOLL®). NOBADERM® is sterile and individually packed.

Composition

Polyurethane, polyacrylate adhesive

Normative and Legal Requirements

NOBADERM® is a medical product in accordance with the MDD, class Is, rule 4, and complies with the requirements of the directive 93/42/EEC.

Sterilization of the product complies with DIN EN 11135.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

Date of information: July 13, 2010

Packaging

Primary packaging: paper-film Packaging

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

Storage

To be stored in a dry and dust-free environment, protected against direct sunlight
