

## NOBATUB<sup>®</sup>, braun

### Product Description and Purpose

The permanently elastic, brown tubular bandage serves as an underlay to protect the skin when rigid cast bandages made of plaster or synthetics are applied. Owing to its enormous elasticity it can support ligaments and musculature after sports injuries. The material is likewise suited for self-made special bandages according to Desault or Gilchrist. Orthosis or braces, which are made of polyester or fibre glass, can be fixed by means of NOBATUB<sup>®</sup>.

### Composition

Cotton, elasthan, nylon

### Normative and Legal Requirements

NOBATUB<sup>®</sup> is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

### Packaging

Primary packaging: folding box made of cellulose

Secondary packaging: carton made of cellulose

### Storage

To be stored in a dry and dust-free environment
