

ABDOMINALVERBAND

Product Description and Purpose

The abdominal bandage is permanently elastic and 25 cm wide. It is provided with a padding which is to lie on the abdomen. Owing to a hook and loop fastening the bandage has an adjustment tolerance of approximately 10 cm. The abdominal padding evenly spreads the pressure over the stomach's surface and consequently relieves the wound suture after operations in the abdominal cavity. The abdominal bandage is not intended for permanent use as a dorsal bandage.

Composition

Cotton, polyamide, polyester, elastane

Normative and Legal Requirements

The abdominal bandage is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

Packaging

Primary packaging: folding box
made of cellulose

Secondary packaging: carton made of cellulose

Storage

To be stored in a dry and dust-free environment, protected against direct sunlight.
