

# NOBA Verbandmittel

Danz GmbH u. Co KG

## NOBASTRETCH<sup>®</sup>-kräftig

### Product Description and Purpose

The brown long-stretch compression bandage has a stretchability of 170 %. It is permanently elastic and, owing to its weave, it has a strong structure. It is suited for the treatment of sports injuries, since it supports and relieves the musculature, joints etc. It also helps to flush out oedema and can be used for compression bandages in phlebology, as thrombosis prophylaxis and after-treatment of venous diseases. Due to the high resting pressure of long-stretch bandages it is not recommended to leave the bandage applied overnight.

### Composition

Cotton, polyamide, polyurethane

### Normative and Legal Requirements

NOBASTRETCH<sup>®</sup>-kräftig (long-stretch) is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

### Packaging

Primary packaging: folding box made of cellulose

Secondary packaging: carton made of cellulose

### Storage

To be stored in a dry and dust-free environment, protected against direct sunlight

Date of information: July 5, 2010
