

NOBA Verbandmittel

Danz GmbH u. Co KG

NOBAFRACT®

Product Description and Purpose

NOBAFRACT® is a fixed plaster bandage. The composition of the plaster warrants a short setting time, rapid hardening, as well as a high stability. The plaster bandages are as well suited for the treatment of reduced fractures (as split cast) as for their after-treatment (as circular cast bandage). They can also be used for the temporary immobilization of inflammatory processes like, for example, epicondylitis humeri, tendovaginitis, or bursitis.

Composition

Viscose, beta calcium sulphate semihydrate, alpha calcium sulphate semihydrate

Normative and Legal Requirements

NOBAFRACT® is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

Packaging

Primary packaging: PP bag

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

Storage

To be stored in a dry and dust-free environment
