

NOBAFORM[®]-LONGUETTEN

Product Description and Purpose

The 4-ply plaster slabs are suited for the creation of all sorts of plaster splints. They are used in the primary medical care of fractures as well as in cases of inflammatory processes which necessitate temporary immobilization. NOBAFORM[®] plaster slabs may also be used to strengthen circular plaster bandages. Sports injuries may as well require a short-time immobilization by means of a plaster splint.

Composition

Cotton, gypseous alabaster, (calcium sulphate semi-hydrate)

Normative and Legal Requirements

NOBAFORM[®]-Longuetten (plaster slabs) is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.
