

NOBA[®]-OP-MASKE

Product Description and Purpose

The green, 3-ply surgical mask is available in different designs and has a filtration efficiency of 99 %. Its differential pressure is very low. The microbiological filtration performance of all masks is very high, thus providing a safe protection for the patients and at the same time an additional protection for the user from splashes of contaminated liquid. The masks are equipped with a worked-in nose bow which can be matched to the dorsum of the nose. Edges and inner non-woven of the surgical masks are extra soft. The masks are free from glass fibre and latex.

Composition

Polypropylene

Normative and Legal
