

SAUGKOMPRESSE-steril

Product Description and Purpose

The highly absorbent wound pad is provided on its back side with a blue non-woven, which is impenetrable to liquids. It is filled with an extremely absorbent body and is used in cases of heavily exuding, infected or chronic wounds. The absorbent wound pad may also be used in the case of weeping wound healing disorders. The absorbent wound pads are individually packed and sterile.

Composition

Polypropylene, cellulose

Normative and Legal Requirements

Saugkompreße (Absorbent Pad)-sterile is a medical product in accordance with the MDD, class Is, rule 4, and complies with the requirements of the directive 93/42/EEC.
