

NOBACARBON®

Product Description and Purpose

Individually packed and sterile activated carbon swab for wound dressings. The activated coal binds odours and bacteria, and the non-woven cover absorbs the wound exudate. NOBACARBON® serves as wound dressing for foul-smelling, acute or chronic wounds, besides causal therapeutic measures such as surgical debridement and systemic antibiotics therapy.

Composition

Activated carbon, polyester, viscose, polyethylene

Normative and Legal Requirements

NOBACARBON® is a medical product in accordance with the MDD, class IIa, rule 4, and complies with the requirements of the directive 93/42/EEC.

Sterilization of the product complies with DIN EN 11137.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

Packaging

Primary packaging: paper-film packaging

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

Storage

To be stored in a dry and dust-free environment, protected against direct sunlight
