

# NOBA Verbandmittel

Danz GmbH u. Co KG

## NOBARAPID<sup>®</sup>

### Product Description and Purpose

The sterile special wound swab is non-adherent due to the perforated films which are laminated on both sides of the swab. The exudate is absorbed by the cotton-layer. The film prevents the swab from adhering to the wound. The swab is suitable for wounds which tend to dry up. Due to its non-adherent feature, the swab may also be used for abrasions.

### Composition

Polyethylene, polyester, cotton

### Normative and Legal Requirements

NOBARAPID<sup>®</sup> is a medical product in accordance with MDD, class Is, rule 4, and complies with the requirements of the directive 93/42/EEC.

Sterilization of the product is in accordance with DIN EN 17665.

The product does not contain dangerous toxic substances according to REACH. It has CE marking and EN 980 labels on all its packaging.

### Packaging

Primary packaging: paper packaging

Secondary packaging: folding box made of cellulose

Tertiary packaging: carton made of cellulose

### Storage

NOBARAPID<sup>®</sup> is to be stored in a dry and dust-free environment.
