

## NOBARIGID<sup>®</sup>-Fingerschiene

### Product Description and Purpose

The splint material of NOBARIGID<sup>®</sup> finger splint consists of an aluminium band which is padded on one side with foam material. Fingers or other extremities can quickly and easily be immobilized by means of this splint. The aluminium band is easy to form and the length can be adjusted with simple bandage scissors or cast scissors. An adequate bandage is needed to fix the splint.

### Composition

Aluminium, polyester-based polyurethan foam

### Normative and Legal Requirements

NOBARIGID<sup>®</sup> is a medical product in accordance with the MDD, class I, rule 1, and complies with the requirements of the directive 93/42/EEC.
